

AuditLog
- audit_id : UUID
- event_type : AuditEventType
- severity : AuditSeverity
- actor : String
- target : String
- description : String
- timestamp : DateTime
{sans clé étrangère}

Peer
- peer_id : UUID
- peer_name : String
- organization_name : String
- organization_type : OrganizationType
- country_code : String
- asn_number : BigInt
- api_endpoint_url : String
- public_key : String
- certificate_fingerprint : String
- max_scrubbing_capacity_gbps : Float
- declared_available_gbps : Float
- measured_latency_ms : Float
- status : PeerStatus
- membership_status : MembershipStatus
- relationship_type : RelationshipType
- first_seen : DateTime
- last_heartbeat : DateTime
- consecutive_missed_heartbeats : Integer
- created_at : DateTime
- updated_at : DateTime

Attack
- attack_id : UUID
- status : AttackStatus
- severity : AttackSeverity
- peak_volume_gbps : Float
- overflow_volume_gbps : Float
- local_capacity_at_detection : Float
- target_ip_range : String
- target_service : String
- target_port : Integer
- target_protocol : String
- coalition_helped : Boolean
- nb_peers_involved : Integer
- detected_at : DateTime
- ended_at : DateTime
- duration_seconds : Integer
- created_at : DateTime

HelpSession
- session_id : UUID
- attack_id : UUID {FK}
- helping_peer_id : UUID {FK}
- requesting_node_id : UUID {FK}
- status : SessionStatus
- direction : HelpDirection
- allocation_pct : Float
- accepted_volume_gbps : Float
- actual_volume_gbps : Float
- cr_value : Float
- tunnel_type : TunnelType
- credits_exchanged : Float
- quality_rating : Float
- rejection_reason : String
- requested_at : DateTime
- responded_at : DateTime
- activated_at : DateTime
- completed_at : DateTime

ReciprocityTransaction
- transaction_id : UUID
- peer_id : UUID {FK}
- session_id : UUID {FK, nullable}
- transaction_type : TransactionType
- credit_amount : Float
- created_at : DateTime

LocalNodeConfig
- node_id : UUID
- node_name : String
- organization_name : String
- organization_type : OrganizationType
- country_code : String
- region : String
- asn_number : BigInt
- ip_range_protected : String
- api_endpoint_url : String
- api_port : Integer
- public_key : String
- certificate_fingerprint : String
- max_scrubbing_capacity_gbps : Float
- current_load_percent : Float
- status : NodeStatus
- coalition_join_date : DateTime
- last_updated : DateTime
